

Dialysis

ACROSS

1. Movement of solutes high to low
5. Used in response to sudden pain
7. Artery used when checking BP
10. Greeting
11. Abbr. Blood pressure
12. Abbr. major plasma protein
13. Hypersensitivity reaction
17. dialysate flowing from dialyzer
19. Medical Review Board (abbr.)
22. Cold sterilant/peracetic acid
24. Made up of several ingredients
29. A grassland, a meadow
30. To sum numbers
31. Ultrafiltration rate of dialyzer
33. Refers to time for sterilizing to occur
37. Opposite of yes
41. Female chicken
42. Number of blood ports on dialyzer
43. Buffer in dialysate
44. A single entity or unit
46. Means contains element carbon
47. Weight equal to 2,000 pounds
48. Most popular type of air/foam sensor
51. For example
52. Milliliter
53. Removes suspended particles from water
54. Abbr. National Health Insurance
55. Year
56. Simple blood test for anemia
59. Term for returning RBCs to patient
60. June
61. Abbr. Medical Doctor
63. Inflammation of the liver

67. What to do with dialysis treatment if anaphylaxis occurs
 68. Abbr. American Society of Nephrology
 69. Reuse done with a machine
 72. Another term for hollow fiber
 74. Protein waste product
 76. deoxyribonucleic acid
 77. Another term for vacuum pressure
 82. Techs that do patient care
 83. January
 85. Blood line pre-dialyzer
 86. Abbr. plastic plumbing material
 87. Charged particle
 88. Apical pulse
- DOWN
1. An artificial kidney
 2. Food and Drug Admin.
 3. Bean high in protein
 4. Greeting in Spanish
 6. Abbr. White blood cell
 8. Dialysate flowing into dialyzer
 9. Abbr. American Nephrology Nurses Assoc.
 10. Abbr. Hepatitis B Virus
 12. Must be removed during priming
 14. Common bacteria in water
 15. Test water bacterial endotoxins
 16. Dialyzer with the lowest KUFs
 18. Millimeter
 20. Sodium hypochlorite
 21. Unit of measure for molecular weight of a substance
 23. Abbr. artificial kidney
 25. Yes in French

26. Type of water pressure
27. De-ionization
28. Abbr. drug to treat anemia
32. Substance to remove chloramines in water
33. Chemical disinfectant found in water
34. Condition with a low red blood cell count
35. Measures kidney function
36. Complete absence of any living organism
38. Bacteria in blood
39. Abbr. Registered Nurse
40. Destruction of RBC
45. Enlisted in U.S. armed services
48. A vase of varying size & shape
49. Plant membrane material
50. Responsible for solute removal
57. Efficiency of solute removal
58. Term that means to pass through once
59. Abbr. reverse osmosis
62. difficulty breathing
64. Abbr. water treatment standards
65. Symbol for calcium
66. Opposite of no
70. To be announced
71. Magnetic Resonance Imaging
73. Abbr. Red blood cell
75. Abbr. Renal Physicians Assoc.
78. Abbr. granular activated carbon
79. Abbr. transmembrane pressure
80. Type of gas sterilant for dialyzers
81. Abbr. for father
83. Puzzle author's initials
84. Symbol for sodium
