ACROSS

- 1. Water not to be used to prepare dialyzing fluid
- 6. A device that joins two systems in such a way to prevent leakage
- 9. What staff must do with all labels on containers
- 11. Abbr. Parathyroid Hormone
- 13. Abbr. technicians that do patient care
- 14. A solution with a lower osmolality than normal blood.
- 16. A clinical state of less than normal number of Red Blood Cells
- 19. Refers to germ free.
- 22. Soaked with a liquid; such as water
- 23. To attract and retain other material on the surface
- 26. A failure in muscular coordination, causing an unsteady gait
- 28. Complex liquid organ that circulates throughout the cardiovascu-
- lar system
- 30. Major cation in EC fluid. Regulates extracellular volume
- 32. Number of particles (ionized or unionized) in a known volume, mOsm/L
- 34. Destruction of the red blood cell with release of hemoglobin into the plasma
- 36. Symbol Lithium
- 37. A thin line or narrow beam of light
- 38. Abbrev. The iron containing pigmented protein (red in color) of the red blood cell
- 41. Valves used to increase water temperature; mixes hot & cold water to desired temperature
- 42. A chemical change caused by heat.
- 43. Pounds per square inch
- 45. Opposite of stop
- 46. Garland of flowers
- 49. Mineral responsible for hard water
- 50. Slang for former spouse or partner
- 51. 21st letter of Greek alphabet

- 52. Abbr. Serum creatinine
- 53. Opposite of off
- 54. Type of contaminant to monitor for to meet the AAMI standards
- 56. Abbr. Systeme International
- 57. Abbr. Department of Health Services
- 60. Abbr. Centimeter
- RBCs shrink and crinkle in shape when exposed to a hypertonic solution.
- 62. Substance that is able to conduct an electric current.
- 63. An elevation in body temperature above normal
- 65. Term for water entering R/O unit under pressure
- 69. Opposed to something
- 71. Intracellular
- 73. To combine to form a sum
- 74. Frozen water
- 76. A procedure to evaluate water quality
- 77. Potassium free dialysate
- 78. A mineral that can leach from galvanized iron piping
- 79. A traditional disinfectant used to treat water
- 81. Abbr. Interstitial
- 82. A mineral responsible for hard water
- 84. Means kidney.
- 87. An erythrocyte
- 90. Test to measure blood urea levels
- 91. In addition; also
- 94. Blood Group Type
- 95. Symbol for sodium
- 96. Alternating current
- 97. To restore the ion exchanger with new exchangeable ions.
- 100. Precipitation of substances such as calcium and magnesium on the surface of the RO membrane.

Water Treatment

- 103. Small child
- 104. Symbol barium
- 105. Acronym for colony forming units
- 106. Abbr. Consumer Price Index
- 109. To fall in drops 110. Abbr. square
- 111. An acid that is a reducing agent that reacts with chloramine
- 113. Prefix for a type of filter that removes particles down to 0.2 microns in size
- 114. A term used for the replacement of one type of ion with another
- 116. Straw colored, non-cellular liquid portion of the blood.
- 119. To urinate
- 120. Abbr. Lumen
- 121. Centers for Disease Control
- 122. A condition when an ion exchanger reaches its capacity
- 123. Term for water high in calcium and magnesium
- 124. Term for water that does not pass R/O membrane and goes to drain

DOWN

- 1. Acronym for chlorinated organic chemicals that are carcinogenic compounds.
- 2. A caustic, poisonous, white crystalline compound derived from benzene.
- 3. Abbr. for blood pressure
- 4. Abbr. Patient
- 5. In dialysis therapy, bacterial cell wall product from gram negative bacteria
- 6. Crust covering a healing wound
- 7. Acronym for the assay that measures the concentration of endotoxins.
- 8. Disinfecting with high temperatures
- 9. Radioactive contaminant
- 10. Abbr. Morning
- 12. Abbrev. A blood test to measure the percentage of RBCs in the total volume of the blood sample
- 13. Acronym for the most common type of plumbing in dialysis.
- 15. A mouth or opening
- 17. Movement of water across a semipermeable membrane from a lower to a higher solute concentration.
- 18. The acellular liquid portion of blood minus clotting factors.
- 20. stands for hydrogen ion concentration
- 21. Internal Revenue Service
- 24. To kill a significant number of bacteria, not complete destruction, usually
- 25. Another term for standards that address the quality of water used for dialy-
- 27. Doctor of Medicine
- 28. Type of filter also known as multimedia filters that operate on depth filtration
- 29. Playfully mischievous
- 31. Means that the substance contains the element carbon
- 32. Greeting expressing excited approval
- 33. Abbr. year
- 34. A solution that has a higher osmolality than body fluids.
- 35. Informal for sister
- 39. Acronym for water treatment with mixed beds containing both cation and anion resins
- 40. Means poisonous
- 41. One-celled organisms involved in infectious diseases
- 44. Substance that dissolves a solute.
- 47. A solution that has the same osmolality as body fluids
- 48. Neurological deterioration, a slow progressive and often fatal syndrome
- 51. A common gram negative bacteria. Usually found in water.
- 53. Colorless, odorless, gaseous element that combines chemically with hydrogen to form water
- 55. Most common form of viral hepatitis
- 58. Strong acid used as a cold sterilant.
- 59. Acronym for ultrafiltration
- 64. Abbr. Extracellular

- 66. Symbol radium
- 67. Abbrev. for the Association for the Advancement of Medical Instrumentation
- 68. Abbr. sterling
- 70. Contamination of water by bacteria and fertilizers is the source.
- 72. Chemical used to disinfect drinking water supplies
- 75. Added to water to prevent dental cavities
- 80. Symbol aluminum
- 83. Refers to the effective area of the dialyzer membrane. Measured in square meters
- 85. Abbr. National Association for Nephrology Technicians
- 86. Arterial blood gas
- 88. A positively charged ion
- 89. Term for purified water rendered following all water treatment processes.
- 92. United States
- 93. Abbr. intra-arterial
- 98. Granular Activated Carbon
- 99. Total viable microbial counts shall not exceed ____hundred ml in water used to prepare dialysate
- 101. Plumbing material not to be used in the water treatment system
- 102. Abbr. low water
- 107. Intelligence quotient
- 108. Slang for dialyzing fluid
- 110. Dialysis soft water tanks, contain food grade quality resin pellets made of?
- 111. Mnemonic for the basics of CPR
- 112. Acronym for the organization issuing the Safety Alert with recommendations on chloramines
- 115. Abbr. Glomerular filtration rate.
- 117. Abbr. Systemic Lupus Erythematosus
- 118. Acronym for water treatment process that forces water, under pressure, across a semipermeable membrane.
